# Amr Elsherif

**Network & Cloud Infrastructure | CCNA Track · AWS · Linux**

Alexandria, Egypt | amrelsherif.eng@gmail.com
linkedin.com/in/amrelsherif-eng | github.com/amrelsherif-eng | amrelsherif-eng.vercel.app

## Education

**Damanhour University** — Sep 2022 – Jul 2027 expected
*B.Eng. Electronics & Communications Engineering | GPA: 3.47/4.00* — *Damanhour, Egypt*

## Experience

**Network Engineering Trainee (CCNA)** — Oct 2026 – Present
*NTI, Digital Egypt Youth* — *Damanhour, Egypt*
- Completing CCNA v7 Routing & Switching training; preparing for the 200-301 exam.
- Packet Tracer labs: Cisco router and switch setup, VLANs, inter-VLAN routing, STP, DHCP, static and OSPF.

**Cloud Architect Intern (AWS)** — Aug 2026
*NTI × ITIDA (MCIT)* — *Egypt*
- 120-hour internship; earned AWS Academy Graduate badges in Cloud Foundations and Cloud Architecting.
- Labs covered VPC networking, EC2, S3, RDS, IAM, load balancing, auto scaling, CloudWatch, and serverless.

**Instrumentation & Control Trainee** — Jul – Aug 2026
*Beheira Drinking Water & Wastewater Co.* — *Damanhour, Egypt*
- Auto-tuned and installed a PID temperature controller in a lab incubator (stable at 100 °C); AUMA actuators, calibration benches, ESD safety.

**Team Leader** — Nov 2025 – Jul 2026
*DEPI (MCIT), Harvest Training Center* — *Alexandria, Egypt*
- Led the 20-trainee Cross-Platform Mobile group; instructor liaison; coordinated graduation-project follow-up.

**Electrical Distribution Trainee** — Jul – Aug 2025 (+2024)
*Beheira Electricity Distribution Co.* — *Damanhour, Egypt*
- Field training on distribution networks and substations; rated 92% (2024) and 98% (2025).

**Full Stack Web Development Intern (PHP)** — Jul 2025
*NTI × ITIDA* — *Egypt*
- Completed 120-hour internship (97.5% score); built team MVC web app using PHP and MySQL.

## Projects

**Li-Fi Graduation Project** | *Raspberry Pi 5, PPP, WireGuard, OpenCV* — Oct 2026 – Present
- Designing beam-steered Li-Fi with seamless Wi-Fi failover in a 4-member team (design phase).

**DevSync** | *Flutter, Firebase, GitHub API, Gemini API* | GitHub — May – Jul 2026
- Led the 5-member team that designed and built an AI app that matches developers with projects (Gemini API).

**WeatherLink** | *ESP32-S3, Embedded C++, PlatformIO, Blynk Cloud, Flutter* | GitHub — Feb – May 2026
- Five-member team project combining embedded firmware, cloud sync, and a Flutter app.

## Skills

**Networking:** Routing (Static, OSPF), Subnetting (IPv4/IPv6), VLAN, Inter-VLAN, STP, DHCP, ACLs, NAT, TCP/IP, Network Security, Cisco Packet Tracer
**Cloud & Infrastructure:** AWS (VPC, EC2, S3, IAM, RDS, Load Balancing, Auto Scaling, CloudWatch), High Availability, Serverless
**Systems & Tools:** Linux, Git, GitHub, Troubleshooting
**Programming:** Python, C, C++, PHP, SQL

## Certifications & Honors

AWS Academy Graduate – Cloud Architecting (credly.com/go/jEFPJNDz), Cloud Foundations (credly.com/go/pmZ02t1j); Cisco Introduction to Cybersecurity (Jun 2025, Credly); MCIT Certificate of Appreciation – Team Leader (Jul 2026); Official University Representative, EDEX 2025 (Dec 2025).
