Top Skills

Technical Writing
LaTeX
Raspberry Pi

Languages

Arabic (Native or Bilingual)
English (Limited Working)

Certifications

Build with AI: Masr Edition – Google for Developers × ITI (Attendance)
English for IT 1
Web Development using PHP (60 Hours)
Elements of AI for Business
AWS Academy Graduate – Cloud Architecting

Honors-Awards

Certificate of Appreciation – Team Leader
Official University Representative – EDEX 2025 (Egypt Defence Expo)
Invited Speaker – Student Career Event, Creativa Hub Damanhour

Amr Elsherif

Network & Cloud Infrastructure | CCNA Track · AWS · Linux | Aspiring DevOps Engineer | ECE ’27
Alexandria, Egypt

Summary

I work where telecommunications, network infrastructure and scalable cloud deployments meet. My Electronics & Communications Engineering foundation (ECE '27) gives me a signals-to-systems view of the infrastructure I build and run.Hands-on experience across the stack:• Cloud: AWS architecture through the NTI Cloud Architect program (120 h) and two AWS Academy Graduate badges (Cloud Foundations, Cloud Architecting).• Linux and networking: Linux administration, plus Cisco routing and switching on the CCNA v7 track (IP addressing and subnetting, VLANs, OSPF, ACLs, NAT).• Connected IoT hardware: WeatherLink, a monitoring and control system built on an ESP32-S3 with Embedded C++ firmware, Blynk Cloud sync and a Flutter app.I also led 20 engineering trainees at DEPI and delivered DevSync, an AI-powered developer-matching platform, with a 5-member team.CREDENTIALSNTI Cloud Architect (120 h) · AWS Academy Graduate – Cloud Foundations and Cloud Architecting · DEPI Mobile track (MCIT Certificate of Achievement) · McKinsey ForwardOpen to Cloud, DevOps, Network and Infrastructure opportunities, including internships and entry-level roles. Message me if you're building infrastructure that has to be reliable from the device to the cloud.

Experience

National Telecommunication Institute (NTI)

Network Engineering Trainee (CCNA)
October 2026 - Present (1 month)
Damanhour, Al Buhayrah, Egypt

120-hour Cisco CCNA v7 Routing & Switching program (90 technical + 30 professional-skills hours), delivered at Creativa Hub Damanhour under MCIT's Digital Egypt Youth initiative. Preparing for the CCNA 200-301 exam.

• Hands-on Cisco Packet Tracer labs on router and switch configuration, VLANs and inter-VLAN routing, STP, DHCP, and static and OSPF routing

• Topics include IPv4/IPv6 addressing and subnetting, ACLs, NAT, wireless LANs, WAN and VPN/IPsec concepts, and network security fundamentals

National Telecommunication Institute (NTI)
Cloud Architect Intern (AWS)
August 2026 - August 2026 (1 month)
Egypt

Fully funded 120-hour summer internship by NTI and ITIDA (MCIT): 90 hours of AWS training plus 30 hours of soft skills and freelancing.

• Completed AWS Academy Cloud Foundations (20 h) and Cloud Architecting (60 h), earning both AWS Academy Graduate badges
• Labs covered VPC networking, EC2, S3, RDS and IAM, load balancing and auto scaling, CloudWatch monitoring, and decoupled and serverless architectures

الشركة القابضة لمياه الشرب و الصرف الصحي
Instrumentation & Control Trainee
July 2026 - August 2026 (2 months)
Damanhour, Al Buhayrah, Egypt

Six-week accredited field training at Beheira Drinking Water and Wastewater Company (part of the Holding Company for Water and Wastewater), in the Central Workshops instrumentation lab.

• Wired, configured and auto-tuned a digital PID temperature controller, then installed it in a lab incubator and verified stable closed-loop control at a 100 °C setpoint
• Tested and troubleshot control boards for AUMA electric valve actuators and the heating circuits of water-distillation units
• Worked with calibration benches, a Spec-Cal process calibrator and microscope PCB inspection, following electrical isolation and ESD safety procedures

Digital Egypt Pioneers Initiative - DEPI
9 months

Team Leader
November 2025 - July 2026 (9 months)
Alexandria, Egypt

Led the 20-trainee Cross-Platform Mobile group while completing the track, and received an MCIT Certificate of Appreciation for the role.

• Main point of contact between trainees, instructors and the Harvest Training Center team
• Coordinated team formation and graduation-project follow-up, and led the 5-member team that designed and built DevSync, from planning to delivery
• Organized shared training materials and team activities, including a Ramadan iftar and the final mentor appreciation session

Mobile App Development Trainee (Flutter)
November 2025 - July 2026 (9 months)
Alexandria, Egypt

9-month MCIT training track in cross-platform mobile development (~120 technical hours) delivered by Harvest Training Center, with parallel Business English, soft-skills and freelancing tracks.

• Covered Dart and OOP, Flutter state management (BLoC, Provider), REST APIs, Firebase (Auth, Firestore, FCM), mobile security, Git/GitHub workflows and app store deployment
• Graduation project: DevSync, an AI-powered app that matches developers with projects based on their GitHub activity (Flutter, FastAPI, Firebase, LLMs)

Beheira Company for Electricity Distribution
Electrical Distribution Trainee
July 2025 - August 2025 (2 months)
Damanhour, Al Buhayrah, Egypt

Accredited field training on medium- and low-voltage distribution networks, transformer substations, load management and safety compliance. Completed two summer rounds rated Excellent: 92% (2024) and 98% (2025).

National Telecommunication Institute (NTI)
Full Stack Web Development Intern (PHP)
July 2025 - July 2025 (1 month)
Egypt

Fully funded 120-hour NTI × ITIDA summer internship (90 technical + 30 freelancing hours), completed with a 97.5% final score.

• Built a team graduation project: a PHP and MySQL web application with OOP/MVC structure, session-based authentication and a responsive front end
• Covered REST API design, database normalization, SQL joins and web security basics, with an introduction to Laravel

Education

Damanhour University

Bachelor of Engineering, Electrical, Electronics and Communications Engineering · (September 2022 - July 2027)
